

Lechisa Bedasa

Full-Stack Software Developer

Addis Ababa, Ethiopia | +251928290661 | lechisabedo123@gmail.com

Professional Summary

Full-Stack Software Developer with a strong background in designing and building scalable web applications using modern technologies. Experienced in both backend and frontend development with frameworks such as Laravel, Node.js, React, and Flask. Proven ability to work in collaborative teams, contribute to system architecture, and deliver reliable software solutions. Passionate about solving real-world problems through clean, maintainable code and continuous learning.

Technical Skills

Languages: PHP, JavaScript, Python, HTML, CSS, SQL

Frameworks & Libraries: Laravel, React.js, Node.js, Express.js, Flask, Nest.js, Next.js

Databases: MySQL, MongoDB, PostgreSQL

API & Architecture: REST APIs, GraphQL, MVC Architecture

Tools & Technologies: Git, Bootstrap, Docker (basic), Agile Development

Other Skills: Problem Solving, Team Collaboration, System Design

Professional Experience

Software Developer – Ethiopian Artificial Intelligence

January 2024 – Present

- Develop and maintain web-based software systems for language processing and automation.
- Design and implement backend services and APIs using modern web technologies.
- Collaborate with cross-functional teams in an agile development environment.
- Participate in code reviews, system design discussions, and performance improvements.

Software Engineering Intern – Ethiopian Artificial Intelligence

March 2023 – August 2023

- Developed responsive web applications using Laravel, HTML, CSS, and JavaScript.
- Improved system usability and ensured cross-device compatibility.
- Assisted in troubleshooting and resolving technical issues in ongoing projects.
- Participated in team planning meetings and contributed to technical discussions.

Key Projects

Afan Oromo Spell Checker – Final Year Project

- Developed a web-based spell checker for the Afan Oromo language using Python and Flask.
- Implemented modules for tokenization, error detection, and suggestion generation.
- Prepared dictionary datasets and contributed to system documentation including SRS and SDD.
- Integrated linguistic processing techniques to improve spelling accuracy.

Education

Bachelor of Science in Software Engineering

Haramaya University, Ethiopia — Graduated July 2024

GPA: 3.92 / 4.0 (Honors: Cum Laude)

Languages

Afan Oromo (Fluent), English (Fluent), Amharic (Conversational)
